

# CA ERwin® Data Modeler Product Family

CA ERWIN® DATA MODELER IS AN INDUSTRY-LEADING DATA MODELING SOLUTION THAT PROVIDES A SIMPLE, VISUAL INTERFACE TO MANAGE YOUR COMPLEX DATA ENVIRONMENT. THE CA ERWIN® DATA MODELER FAMILY OF PRODUCTS IS MADE UP OF A NUMBER OF DISTINCT EDITIONS THAT ARE DESIGNED TO MEET THE NEEDS OF A VARIETY OF STAKEHOLDERS ACROSS THE ORGANIZATION.

CA ERwin® Data Modeler is an industry-leading data modeling tool that has been the trusted name in modeling for over 20 years. With enterprise-class functionality at an affordable price, CA ERwin allows you to reduce the time and cost spent managing your complex database environments. Choose the Edition that's right for you.

## Standard Edition

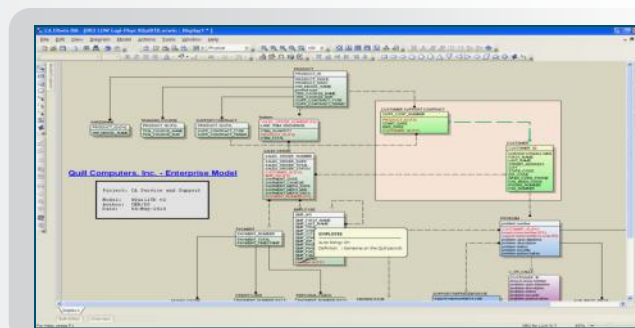

CA ERwin Data Modeler Standard Edition (SE) is a standalone desktop version of our modeling product for individual use.

### Description

CA ERwin® Data Modeler SE is an industry-leading data modeling solution that provides a powerful way to visualize data from multiple sources across the organization, increasing efficiency through reuse and standards, while at the same time increasing data quality and providing a unified view of strategic data assets.

CA ERwin Data Modeler SE increases productivity by providing an easy-to-use graphical environment that simplifies database design and automates many time-consuming tasks, accelerating the creation of high-quality, high-performance transactional and data warehouse databases. The ability to visualize large quantities of data objects in a graphical format helps promote effective

*CA ERwin Data Modeler SE provides a simple, visual interface to manage your complex data environment.*

communication between the business and technical stakeholders, ensuring that business requirements align with technical database implementations. With a visual design, database developers can address design issues and concerns prior to any significant resource investments, helping your organization respond faster to evolving business needs by highlighting the impact of change on information assets and allowing you to respond quickly and the ever-changing and quickly growing data environment.

## Workgroup Edition

CA ERwin Data Modeler Workgroup Edition (WE) is designed for collaborative modeling for teams of data modelers.

### Description

CA ERwin® Data Modeler WE provides conflict resolution, versioning, security and standardization for multi-user modeling. Through a central model repository, model assets can be inventoried and re-used across the organization. Repeatable modeling success, as well as higher quality and efficiency depends on the ability to automate the process, share work products, actively promote standards and maintain an effective audit trail. CA ERwin Data Modeler WE extends our Standard Edition with a multi-user modeling environment that makes coordinated, large-scale modeling possible.

## Navigator Edition

CA ERwin Data Modeler Navigator Edition (NE) is a read-only version of the Workgroup Edition product for secure sharing of detailed modeling assets with a wide range of stakeholders across the organization.

### Description

Data models are relevant to many different stakeholders across the organization. The ability to permit others to visualize and analyze the details of model metadata is critical to successful collaboration of diverse project teams. CA ERwin Data Modeler NE provides this capability and more in a visual, managed and secure manner.

## Community Edition

CA ERwin Data Modeler Community Edition (CE) a FREE, entry-level data modeling tool that is a subset of CA's flagship CA ERwin Data Modeler SE product.

### Description

CA ERwin Data Modeler CE It is a great way for students and those new to modeling to get started with an industry-leading data modeling tool. It offers many of the core features of data modeling with a limit of 25 model objects. This includes forward and reverse engineering, complete compare, and more.
